SOFT SKILLS :

- Problem Solving,
- Team Collaboration
- Communication
- Adaptability

SUMMARY :

Motivated MERN Stack Developer currently pursuing B.Tech (6th Semester) in Computer Science Engineering. Experienced in building full-stack web applications including scalable backend systems using Node.js, Express, and MongoDB. Developed real-world projects like an Airbnb Clone and Hospital Management System. Strong problem-solving skills and passion for clean, efficient, and maintainable code.

INTERNSHIP EXPERIENCE :

MERN STACK DEVELOPER INTERN

Codec Technologies

Duration: 2 Months

- Developed and tested RESTful APIs using Node.js and Express.js
- Integrated MongoDB database with backend services
- Assisted in building responsive frontend components using React.js
- Collaborated with team using Git and GitHub
- Debugged and optimized application performance

PROJECTS :

Hospital Management System

- Built system for managing patients, doctors, and appointments
 - Developed secure backend APIs
 - Implemented CRUD operations with proper validation
 - Designed admin dashboard for record management
- Tech Stack:** React.js, Node.js, Express.js, MongoDB

Airbnb Clone (Full Stack Web Application)

- Developed property booking platform using MERN stack
 - Implemented authentication & authorization (JWT)
 - Built RESTful APIs and integrated MongoDB
 - Designed responsive UI with Tailwind CSS
- Tech Stack:** React.js, Node.js, Express.js, MongoDB

Personal Portfolio Website

- Designed responsive personal portfolio website
- Showcased projects and technical skills
- Optimized for mobile responsiveness

Tech Stack: HTML, CSS, JavaScript
